

TempBLE

Bluetooth temperature data logger, managed through Android devices with [TempBLE Delivery](#) App for transports, from Google Play. The data logger is paired to a smartphone and transmits data via Bluetooth (4.0 or above) at a programmed rate. Data are displayed in real time as they come and alarms are given when temperature is out of limits (limits can be programmed too). At reach delivery it is possible to send data via email. Connecting a Bluetooth thermal printer data can be printed to be left with delivery documents.
